

Our mission is to protect human health and the environment by regulating pesticide sales and use, and by fostering reduced-risk pest management. DPR has the nations most comprehensive state pesticide regulatory program, recognized internationally for overall excellence and particularly for its scientific rigor.

What they do:

Program Technicians perform work related to the technical aspects of the programs throughout the Department, including completion and/or review in the processing of technical documents or providing technical information to employees and/or the public.

The variety, complexity, and difficulty of duties of Program Technicians vary among positions and require a thorough and detailed knowledge and application of related laws, rules, and regulations to their program area.

What you need to qualify:

Minimum qualifications for entry in a Program Technician position include either one year of experience in California state service performing clerical duties at a level of responsibility not less than that of an Office Assistant, or one year of clerical experience (circumstances may allow academic education above the twelfth grade to be substituted for one year of required general experience).

Program Technician
\$24,348 - \$38,316
